EDUCATION

B. Tech in CSAI	Plaksha University, Mohali	8.34	2025
12th – CBSE	Sanskriti School, New Delhi	93.8	2024
10th – CBSE	Sanskriti School, New Delhi	92.7	2022

EXPERIENCE

Co-Founder Nexus	December 2025 – Present
- Building a Market place for Software Products, currently In Pilot Testing. - Registered member of D2C Chandigarh Startup group, Appreciated by founders at the Entrepreneurship Challenge Cup hosted at Plaksha University.	
ML Intern Dixon IoT Lab	December 2025 – January 2026
- Led Data Cleaning and preprocessing pipelines for Computer Vision project under the mentorship of Prof Srikant Srinivasan(Dean Of Academics). - Managed both automated and manual annotation workflows for road traffic datasets, ensuring high data fidelity for research analysis. - Annotated 3000+ frames and developed models for segmentation.	
ML Intern Whilter AI .	May 2025 - June 2025
- Designed and trained agentic AI models; utilized GridSearchCV to tune hyperparameters and optimize performance. - Structured scalable data pipelines, demonstrating the ability to organize and process complex information systematically.	
Graphic Design Intern Jan Shikshan Sansthan (JSS) .	May 2025 - June 2025
- Played a pivotal role in data handling on the Skill India Digital Portal, ensuring eligibility compliance . - Developed graphic content for stakeholder updates regarding Plantation Drives and Swachta Pakhwada.	

PROJECTS

Science On Wheels Prof. Shashank Tamaskar and Prof Rucha	Sept 2025 - Present
Social Media Management: Spearheaded daily content delivery for project handles, maintaining an active online presence through curated updates and audience engagement Content Creation: Designed and published visual assets, including event collages and multimedia updates, to document project milestones and drive community outreach..	
Sailboat Project Prof. Andy D. Ruina	Sept 2024 - Feb 2025
- Worked as a protégé to set up artificial wind environments to simulate real-world conditions for aerodynamic testing. - Perfected and finalized a functioning sailboat model through rigorous testing, iteration, and design optimization.	

SKILLS

Programming Languages: Python, C/C++, HTML, LaTeX, LINUX, JavaScript Technologies: Machine Learning, LLMs, Crew Ai, Flask, AWS , Git, Nginx, Sci kit learn, Auto Distill, Grounding Dino, Sam, CVAT

ACHIEVEMENTS/EXTRACURRICULARS

- Published a Scientific Journal Article on Agentic AI for Education in Springer X Plaksha 2025 edition Finalists for FitoorXPrayas Hackathon and How I met my investor. - Awarded Academic Excellence for 12th grade Academic Performance. - Secured 5th Position in Plaksha 2025 Intra Chess Tournament - Student Volunteer for campus tours for Founder’s Day 2024 and Foundation Day 2025 - Participated in the first theatre performance for introducing club Spotlight Core team member for Club Athleda, Mun and debating Society, Spotlight (theatre club) and Escape club (Adventure club)

POSITIONS OF RESPONSIBILITY

OC Member Young Creators League (YCL)	2025
- Designed presentation materials and content to support event execution and participant engagement. - Played an active role in organizing the YCL event at Plaksha University, coordinating logistics and on-ground operations.
